

Tran Huu Dong

Front-end Developer

Name Trần Hữu Đồng

Phone 0905 876 254

Github <https://github.com/huudongg25>

Birth February 25, 1998

Email thdong98225@gmail.com

Introduce yourself

- I am a non-professional who went to study IT, from the beginning I felt that I was very passionate about the industry and learned and cultivated a lot of knowledge about programming by myself.
- After studying and doing my own projects, I think I have enough knowledge to be able to work in practice, gain more experience and learn from those who have gone before.
- I have no experience in the industry, but in return I am a hard-working, curious/researcher, ambitious and passionate about the industry, ready to OT to be able to secure a good job.

Job goals

Short-term

- Continue learning to perfect your front-end skills. Have a stable job in the industry, accumulate more work experience and bring value to the company and yourself.

Long-term

- Continue learning the Back-end to become a Fullstack Developer.
- Become a good, experienced programmer and advance in the industry.
